NEW BUSINESS FIRM

Of Melvain, Knox & Diener Taxes
Over Firm of Melvain & Knox.
Furniture Dealers and Under-
takers—New Firm Will Be
Incorporated.

The Melvain & Knox Furniture and Undertaking establishment of this city has been taken over by Melvain, Knox & Diener, Mr. A. F. Diener, son of Mr. George Diener, being the new member of the firm. This is one of the biggest business deals that has been put over in Maysville for some time and involves thousands of dollars.

The new member of the firm, Mr. Diener, has had considerable experience in the furniture business having been in this business in St. Louis, Mo., and also several years ago in this city. He is a young man with many friends in this city and county and is a hustler who will add much prestige to this already established firm. The other members of the firm are too well known in this section to need any introduction to the people. Mr. Melvain, the senior member of the firm, having been identified with the furniture and undertaking business in this section for a number of years and is known for his straight, square business dealings. Mr. R. G. Knox came to this city about five years ago to take charge of the undertaking business for the firm and he is known to practically every person in the city and county, having won their confidence and respect some time ago.

The new concern will occupy the building wherein they are now located until a better location can be found. The new firm will be incorporated and at once will put in the best line of furniture possible. They will continue the policy so long ago established by this house in selling only the best. They will also continue their undertaking business. The deal has been handled from the start by Messrs. Arn and Devine, local real estate dealers.

There will be a box and pie social at the Eastland school Friday night.

Received a line of School Girls' Hats.

TWENTY-EIGHTH ANNUAL REUNION

Of the Association of the Tenth Kentucky Cavalry and the Sixteenth Infantry in the Civil War
Held Yesterday in Beechwood Park.

The 28th annual reunion of the surviving members of the 10th Kentucky Cavalry and the 16th Infantry of the Union side in the Civil War was held yesterday in Beechwood Park. A large number of the comrades from these regiments and other regiments were present. The total number of visitors present on the grounds during the day far exceeded 100 persons.

Captain Tom Wood of the Sixteenth opened the morning meeting of the association with a prayer. The registration was then attended to and the election of officers was then held. Col. R. Maltby, having been elected for life as president of the association in 1915 he being a member of both the 10th and 16th, the first of the officers elected were the vice presidents:

First Vice President—D. Dryden of Maysville.

Second Vice President—Henry Metcalfe of Brooksville.

Secretary-Treasurer—Mrs. G. W. Hook of Springdale.

Assistant Secretary-Treasurer—R. W. Hudson of Flemingsburg.

The registration showed twenty members of the 10th cavalry present, 26 of the 16th and 21 visiting comrades. Comrade David Staggs and Col. Maltby were appointed as a committee on resolutions. The secretary's report was received as read.

It was ascertained that Comrade C. L. Dudley of Company A. of the 10th was the youngest member of the association present, he being 71 years of age, while Comrade H. P. Staggs of Company H. was the oldest, he being 87. H. M. Linville of the 54th Kentucky was the youngest soldier present, 68 years.

The memorial service was held in memory of those members of the association who have crossed the great divide since the last reunion. A very impressive service was held and a touching tribute was paid in memory of the departed brothers. Twenty-five of the members and two honorary members of the association have passed to their last reward since the last report. They offered their lives at a moment of need to their country and surely their reward in heaven will be a great one.

The following was the roll call of those who had died in the past year: Lawson Dye, James H. Shepard, Joseph Carpenter, Rev. Cyrus Riffle, Rev. Miles Wallingford, E. K. Gault, S. P. Bridges, F. M. Young, Dr. Yelton, W. H. Foudray, Charles Dawson, W. A. McChord, G. M. Robb, Lander Thomas, Charles Taylor, William Arnold, Dr. Hord, Thomas Claypoole, John McClanahan, John Dodd, Henry Yates, James Yates, Bunker Owens, Mason B. Drake and Jerome Seestr. The dead honorary members were Mrs. Anna Degman and Mrs. George Spencer.

Following the business session of the morning the company adjourned for the dinner hour. A delicious dinner was served by a number of the ladies. A large part of the time was spent in discussing the war by the veterans while the second and third generation listened to their stories of hunger and privation and of the fighting.

After the dinner hour the company reassembled in the auditorium in the park and several speeches were made. No regular speaker had been provided for the occasion but those who had been asked to make addresses gave excellent ones.

Captain Tom Wood of the 16th gave a very interesting religious talk before the audience and a great enthusiasm was worked up. Capt. Wood gave his experiences along the Christian line and they were very interesting.

Mr. W. H. Meenach of this city gave the leading address of the afternoon, his subject being, "Battlefields of the Civil War." He told very interestingly of the various battlefields he has had the pleasure of visiting and described them.

Others speaking during the afternoon were Comrade Alonzo Seaman of Norman, Okla., and Mrs. G. W. Hook, the newly elected secretary of the association.

The following members of the 10th cavalry were present:
Col. R. R. Maltby, Washington.
C. L. Dudley, Co. A., Flemingsburg.
A. E. Jones, Co. A., Flemingsburg.
L. A. Keal, Co. C., Nepton, Ky.
A. L. Scudder, Co. D., Covington.
Philip Yago, Co. D., Covington.
D. Dryden, Co. D., Maysville.
F. M. Harover, Co. D., Flemingsburg.
Joseph Cochran, Co. D., Maysville.
W. D. Fristoe, Co. D., Flemingsburg.
Charles Hise, Co. G., Maysville.
James McIntosh, Co. H., Maysville.
I. L. Cobb, Co. H., Maysville.

WILL BE BURIED TOMORROW

The body of Dr. Maurice Waller, who died at the home of his sister in Oak Park, Ill., will arrive tomorrow morning at 9:55 o'clock and will be taken to the First Presbyterian Church from whence the funeral will be held tomorrow afternoon at 1:30 o'clock. The service will be conducted by Dr. John Barbour. Burial will be made in the Maysville Cemetery.

RENAKER CONVICTED

Barry Renaker of Cynthiana, who has been on trial this week before the Mason Circuit Court for arson, was found guilty by the jury after being out for two hours and a half and his penalty placed at a minimum of two years and a maximum of three years in the penitentiary. The negro, Eneas Williams, who was employed by Renaker to burn the pens and who was brought here from the state penitentiary as a witness, was returned to Frankfort this morning.

WILL CONCRETE ENTIRE STREET

Cary, Reed & Co., of Lexington, contractors for the asphalt streets in the Sixth Ward will concrete the entire street before they will pour any asphalt. The asphalt can be laid in wintry weather as it must be warmed before applying to the concrete while the latter must be poured during warm, dry weather. They have the concrete poured on the car track and on the south side of the street as far up as Wood street.

A jolly party of young people motored from Augusta Tuesday evening and took dinner at the Central Hotel. Those composing the party were Misses Bonnie Neider and Anna Holmes and Messrs. De Witt Ginn, Chester Hagan and Bedford Hagan.

Mr. Simon Crowell, who suffered a stroke of paralysis last week, continues to improve at his home. This will be good news to his many friends.

In the Mason Circuit Court yesterday suits against the Bates-Rogers Construction Co. by L. M. Gasper and Joseph Lee were dismissed.

Mr. Truehan Berry of this city and Miss Neva Merz of Aberdeen were granted a license to wed this week in Georgetown, Ohio.

PREPAREDNESS IN THE LIGHT OF EUROPEAN TRAGEDY

We know now what modern warfare means, and the problems that must be met. No country can rely on a standing army for defense. An army of one, two, or even three million men kept on a war basis would impoverish the nation and still be inadequate for national defense in time of a great war. Group training does not meet the issue. The new word taught by this awful hour is Universal Training. Militarism is repugnant to the mind of the Republic, but adequate training of the manhood of the nation fits into all the ideals of our people.

The building of efficient manhood is not only necessary for national defense; it is a need of race perpetuation. This building should begin in the grades of our public schools, and be accentuated in the High Schools, and then continued to the point of diminishing returns. The physical training, correlated with mental tasks and social spirit, as in the Wyoming plan, kindling the spirit of national service and unity and patriotism, would repay all effort in efficiency results for the individual.

Our Young Manhood Needs a Tonic

Aside from the necessity for defense and security and national dignity and personal courage, we need a tonic for our young manhood. The weak, soft, nerveless young men we are developing cannot father a worthy race. We need toning up. Cheering a game of base ball, or sitting in the grand stand and watching hired players do a game of foot ball will not build a nation into physical fitness and manhood.

Industrial Efficiency a Military Necessity

Another consideration for the voter this fall lies in the lesson of correlation. With twenty million men ready and fit for battle, we could still be defeated if the industrial life were not keyed to the situation. We need to progress in an orderly way in all the departments of life. To urge the advance of a group or interest or section of our national life without thinking of the correlating needs of the other expressions of our life, is to "lose the advance" in a national sense.

We need in control of the government for the next fifty years, a group of leaders who can think of more than one thing at a time—who can enact reforms without disorganizing the advance movements.

We have much to teach the world, and we need stability and security while we develop our internal life in an orderly way. Internal need, as well as national security, demand that we mobilize and correlate finances, manufacturing, agriculture,—all the expressions of our life to the end of national unity for a time of need and prosperity at all times. Financial prosperity is no disgrace, and no Congress—even of a Republic—needs to apologize for taking an interest in trade relations with the rest of the world.

To spend hundreds of millions of dollars on a navy and hundreds of millions more on the army, and then not to encourage the industrial development of a country, is to disregard all the lessons of the war in Europe.

The Measure of Preparedness

How thoroughly should we prepare ourselves for any danger that might come? Our preparedness should be as deep as our hatred of war, as wide as our love of country and humanity, and as long as liberty has an enemy on earth.

The Reward of Preparedness

Conserving business for war is to conserve it for peace. As I understand the issue at stake in 1916, it is to secure leadership that believes in all-round efficiency. We want an adequate navy to protect our shores and commerce, but we want a commerce to protect. We want military training to protect the nation, but we want a permanently prosperous nation to protect. We want individual training for service—military or civic, financial or industrial,—and in addition we want and must have, the national spirit to protect the individual wherever he may be while he serves us in any capacity, even on the high seas, in Mexico or on a Lusitania.—Edward Amherst Ott.

THAT LONE BALLOT

Mr. Wilson once voted for Suffrage in New Jersey. This is the thing what binds many women to Hughes still. He has pledged not one jot or tittle of his federal authority to any practical support of the cause. He is still hiding behind that lone New Jersey ballot. We do not belittle this vote. We rejoice that he actually acted "yes" or "no" instead of just writing it. As President he has definitely—or rather indefinitely—refused to back up that isolated civilian vote. He still relies on its advertising power to carry him along. Will the women permit it? And remember—a good many conservative Jersey gentlemen voted for Suffrage that same year. It was a not unpopular act for those who desired to escape the stigma of reactionary policy. And it had, moreover, a fair chance of winning!

"HE KEPT US OUT OF WAR"

Wilson kept us out of war! And he has spent \$100,000,000 in doing so in the Villa episode alone. He is now spending from \$15,000,000 to \$20,000,000 a week. He has spent on keeping us out of war with Mexico altogether to date at least \$250,000,000. It is estimated that he will spend at least \$100,000,000 more.

Besides the lives: Vera Cruz, Columbus, Carrizal, not to speak of Santa Ysabel and the thousand minor butcheries which cause the total casualties of the Spanish war of 1898. And then the outraged women, the ruined men, the plundered property, the insult, the sufferings of disowned Americans. And the disgrace and discredit of it all in the eyes of the world.

What a price to pay in treasure, blood and honor! But he kept us out of war!—New York Evening Sun.

Mr. Hughes surely knew just where to hit, or he couldn't have so thoroughly aroused the Democrats. Truth always hurts.

1917 AUTOMOBILES WILL MAKE DEBUT

At "Open Week" in St. Louis
October 2 to 7 (Veiled Prophet Week).

NEW MODELS ARE TO PARADE

Why Autos Always Have Their Coming-Out Party at St. Louis, Notwithstanding Eagerness of Other Cities to Be Host.

America's first display, collectively, of 1917 models of automobiles will be at St. Louis, October 2 to 7, inclusive (Veiled Prophet Week).

The new models will parade through the down business district of the city the morning of Tuesday, October 3, and Thursday, October 5, each parade terminating at the St. Louis Agricultural Fair, where the cars will be parked together for comparison.

Debut at "Open Week."

These parades are to be a feature of an "open week" on Automobile Row, officially defined by the St. Louis Automobile Manufacturers' and Dealers' Association as Locust street between Nineteenth street and Channing avenue (3400 west).

The association, which has charge of the open week and of the parades, has made arrangements whereby all of the St. Louis automobile concerns not located on Automobile Row may share space during the week with concerns that are located there.

A total of 108 kinds of automobiles are sold by St. Louis dealers, according to statistics made public by Captain Robert E. Lee, secretary of the association and editor of the Auto Review. F. W. A. Vesper is president of the association, which for some years held an annual show at Forest Park Highlands but has decided that, for variety's sake, the 1917 models shall make their debut differently.

Bands in Motor Trucks to Play.

Military bands will play lively music from motor trucks up and down Automobile Row each night, October 2 to 7, and many novelties for the entertainment of the crowds will be introduced. The salesrooms will keep open until 10:30 o'clock.

The 1917 models of virtually all the leading makes will be exhibited on Automobile Row and in the parades, according to Captain Lee.

Prices will range from \$345 to \$10,000. Dealers are preparing to show some of the wonderful new creations in closed cars as well as their regular styles of touring cars and the various kinds of "chummy" roadsters and "clover-leaf" roadsters and other odd types.

The dealers in accessories and supplies have joined in the open week movement and will show on Automobile Row the newest inventions for the equipment of automobiles, keeping their stores open until 10:30 p. m.

The fall meeting of the National Association of Automobile Accessory Jobbers is to be held at the Planters Hotel, St. Louis, October 4 to 7, inclusive.

Why Debut Is at St. Louis.

Just why New York and Chicago allow the automobiles to make their American debut at St. Louis year after year is a question that mystifies many persons but easily can be explained without humiliating either of those cities, according to Captain Lee.

They are hindered, he explains, by conditions that they cannot control, but that rest with the Ruler of the Universe. These conditions are climatic. The open fall and winter in the South, Southeast and Southwest indicate to the automobile manufacturers a chance for a multitude of early sales. And so they hurry the new shapes to St. Louis and thus give the Southerners, Southeasterners and Southwesterners an opportunity to compare the latest patterns of many manufacturers before buying, not a model of the season that is passing, but one of the season that is yet to begin to pass.

Auto Industry's Geography Changes.
The St. Louis autumn show has practically changed the geography of the automobile industry. Largely as a result of it, the first consignments and shipments of 1917 models of all of the leading manufacturers are made to the South, Southeast and Southwest. It also has meant the motorizing of this great section of the country and marvelous road improvement.

Captain Lee is authority for the statement that more than 20,000 automobiles are owned in St. Louis alone. The automobile open week and parades are to be features of the St. Louis Fall Festivities, which include the Veiled Prophet pageant of 22 electric floats, the night of October 3, and the St. Louis Agricultural Fair, October 2 to 7. The Veiled Prophet pageant is to depict scenes from Shakespearean plays, this year being the Shakespeare Tercentenary. At the fair an agricultural pageant, showing the evolution of farm equipment and farm practice from the day of the Indian to the present day, is to be staged.

YOU SAY YOU'RE SORE BECAUSE YOUR WIFE DEVOTES A COUPLE OF HOURS A DAY TO GOSSIPING ON THE PHONE, EH? WELL, YOU'RE LUCKY—MY WIFE USED TO KEEP BUSY ON THE WIRE FOR FIVE OR SIX HOURS A DAY!

BUT THIS IS HOW SHE DID IT

PURE TOMMYROT WAS STATEMENT THAT ENGINEERS READ SIX SIGNALS A SECOND

(Railway Age Gazette)

Among the many wild and ignorant statements made on the floor of Congress during the "consideration" of the "eight-hour" law and during its subsequent defense by Democratic members, the blue ribbon should undoubtedly be awarded to Senator James A. Reed, of Missouri, which is worth repeating as illustrating the amount of information on the subject possessed by some "statesmen" who voted for the bill. He said: "I talked with a man who is manifestly more than half a nervous wreck. He used to pull the Twentieth Century Limited between Chicago and New York. He told me that by actual mathematics it could be demonstrated that upon that run the engineer holding that throttle had to read and record in his own brain six signals every second. Eight hours a day is long enough for that kind of labor. Eight hours is long enough for the passengers to ride behind a man under that kind of a strain." Senator Reed has apparently been listening to some of the talk of the brotherhood leaders, and has received the impression that the trainmen "pull" their trains without much assistance from the locomotive. He would probably be much surprised if informed of the actual facts, viz., that the engineers on the Twentieth Century are changed seven times in twenty hours between Chicago and New York! that not one of them runs for more than four hours a trip, and that each of them receives considerably more than a day's pay for each trip of three or four hours that he makes on the Century. He might pursue his investigation that five hours, or 100 miles, is the basis for a day's pay for all passenger engineers on the Eastern roads, and that practically no passenger ever rides behind an engineer who works as many as eight hours a day. We do not blame the Senator for becoming excited about the six signals per second, but a little "actual mathematics" would have shown him that a train running 60 miles an hour traverses 88 feet in a second, and he is doubtless enough of a traveler to know that the scenery along the New York Central is not obscured by a signal every 14 feet. The artless credulity shown by statesmen of the Reed and La Follette type when they are talking to members of the labor unions is only equalled by the impossibility of getting into their heads a single real fact or truth regarding railway matters.

THE BONE BAROMETERS—IT IS A FORTUNATE THING THAT THEY ARE GOING OUT OF STYLE

(Indianapolis News.)

It is fortunate thing that bone barometers are going out of style. The people who always felt everything in their bones were forever feeling many things that nobody wanted them to feel. It never rained on a holiday, the washer-woman never failed to come, the bugs never ate the roses, company never appeared unexpectedly, nothing unpleasant ever happened without the person who had bones declaring that she had known it all the time; that she had felt it in her bones. If the bone barometers could have been trained to predict sunshine and good crops they would have been very good things to have and would never have gone out of style, but a bone barometer was always falling. And at last it has fallen almost out of sight.

Of course, bone barometers were frauds anyway. They never predicted anything except in the vaguest manner until after it had happened and nobody cared what they had to say about it then, or, at least, if anybody did care, it was too late to do anything but care. Grandmothers, as pleasant and useful as they were in other ways, were often the most determined of bone barometers. Anybody who remembers a day when there was going to be a picnic and it rained, will remember that grandmother said that she had told you so, although, as a matter of fact, she had been busy making cookies and frying chicken the whole day before with never a word about rain. It was a source of wonder and interest that grandmother should have known that there was going to be a cyclone or a flood or an earthquake in some far-off locality, but the fact that she knew it was going to rain and spoil the picnic and never said a word about it until afterward was enough to make one lose faith in the prophecies of her bones, any may account for the fact that they are going out of style just as grandmothers are in so many other ways.

Of course, it was not always grandmothers. There were many bone barometers among the loafers that used to sit round the stove in the village grocery store or over the register in the city corner drugstore. And the things they felt in their bones were enough to make the world rheumatic with all the scandals, the rheumatisms, the wars and the crop failures. It is not, you see, so much the things themselves that matter as it is the way we feel about them, and there is no sense at all in feeling things in your bones before they happen and then feeling them other places after they happen.

CHILDREN'S KIDNEYS

No Maysville Mother Should Neglect the Little One's Health.

Oftentimes weak kidneys cause great annoyance and embarrassment to children. Inability to control the kidney secretions, at night or while at play, is attributed to carelessness and too frequently the child is punished. Parents having children troubled with kidney weakness would do well to treat the kidneys with a tested and proven kidney remedy. If there is pain in the back, discolored urine, irregular urination, headaches, dizzy spells or a tired, worn-out feeling, try Doan's Kidney Pills at once. This remedy has been used in kidney troubles for over 50 years and has been recommended by thousands. Convincing proof of merit in the following statement. It's from a resident of this locality.

Mrs. B. M. French, E. Second St., Augusta, Ky., says: "Measles left my children with weak kidneys. The kidney secretions were too frequent in passage and couldn't be controlled at night. Most everything was tried, but without benefit. Doan's Kidney Pills, however, gave the children quick relief."

A SECOND STATEMENT. OVER THREE YEARS LATER, Mrs. French said: "I am pleased to confirm my former endorsement of Doan's Kidney Pills."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. French has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

HELP TO THE SMALL FARMER COULD COME FROM LAND BANKS, KENTUCKIAN ASSERTS

Louisville, Ky., September 26—Members of the Federal Farm Loan Board, now making a tour of the Ohio Valley district and conducting hearings for the purpose of deciding upon a location for one of the 12 branch farm loan banks to be established under provisions of the new rural credits act, spent today in Louisville.

Board members, including William G. McAdoo, Secretary of the Treasury; Herbert Quick, Captain W. S. A. Smith and Charles E. Lobell, left tonight for Columbus, Ohio, where tomorrow's hearing will be held.

Presenting Louisville's claims for one of the branch banks were Peter Lee Atherton, Congressman Swager Sherley and R. A. McDowell, of Louisville; Dr. Fred Mutchler, of Lexington, and Prof. M. O. Hughes, of Bowling Green. The principal argument used by the speakers was that of Louisville's "central location in a district embodying Indiana, Ohio, West Virginia, Kentucky and Tennessee making it the logical location for one of the banks."

PROGRAM OF THE KENTUCKY SUNDAY-SCHOOL ASSOCIATION CONVENTION AT SOMERSET, KY., OCTOBER 5-6-7-8, 1916

Men and women conspicuous in Church, Sunday-School and Educational work have been secured for the program of the Fifty-first State Convention of the Kentucky Sunday-School Association, which will meet at Somerset, October 5-8. isville's "central location in a district embodying Indiana, Ohio, West Virginia, Kentucky and Tennessee making it the logical location for one of the banks."

Pledges Co-operation
Congressman Sherley gave the board assurance that the board might expect the fullest co-operation from Kentucky people generally in assisting the bank in performing its mission.

Other speakers pointed out that 87,000 of Kentucky's 259,000 farms are tenanted and of the total given 135,000 farms are mortgaged, and that many thousands of acres of valuable fruit lands in certain sections of the state are lying idle for the afternoon.

Mr. McAdoo announced that the tobacco output of the state could be enlarged by long-time loans, such as those proposed by the farm loan bank system.

One of the statements made at the hearing was that there are no farmers' loan association in the entire state. This testimony was given by Julian Whit Potter, Bowling Green banker, who asserted that the small farmer is on the outside of the financial inclosure by reason of the fact that the insurance companies prefer only large loans.

"The farmer with influence," Mr. Potter said, "is shown favoritism by banks, trust companies and insurance companies, for he can get lower rates of interest than his neighbor."

TAFT TO CAMPAIGN IN THE MIDDLE WEST FOR THE PACIFISTS
Chicago, September 26—Chicago today became the nucleus of a campaign to enlist the support of the Middle West in the interests of the league to enforce peace. State organizations will be formed, followed by county and precinct branches.

"We are going to send representatives throughout the nation immediately after the election," said W. E. Dorland, in charge of the campaign. "Ex-President Taft will be one of our speakers."

The campaign in Ohio, Indiana, Illinois, Michigan and Wisconsin will be directed from the Chicago headquarters of the league.

PROTECTORATE OVER MEXICO ON THE HORIZON

New London, Conn., September 26—Satisfied of the inability of the Mexican Commission to induce American bankers to float a loan of \$100,000,000 or more, the American Commissioners are prepared to submit a proposal for the establishment of a practical financial protectorate over Mexico. This was learned on high authority today.

The plan is this: To guarantee the payment of the interest and principal on a Mexican loan.

To establish an American Commission to supervise the expenditures in the rehabilitation of Mexico.

To establish, as a collateral issue, a constabulary under the partial control of this commission, for patrolling the northern section of Mexico and for the protection of the border. This border patrol, under the present plan, would be officered for the most part by American military men, and made up of Mexicans qualified for the positions.

The Mexican Commissioners, however, made it plain today that they are not convinced of their inability to negotiate a loan on which to base the financial rehabilitation of their country. One large banking group has left them no room to doubt that they will meet with no success there, but two other combinations have left them some small ground on which to base their hopes of success.

The American Commission though advised by men in touch with the financial situation, is positive that American bankers will not attempt to sell a Mexican loan. The only plan that would appeal to American bankers would be a positive guarantee by the United States of the projected Mexican bond issue.

Pending the arrival of a reply from General Carranza to the question put up to him by the Mexican representatives, asking whether the "first chief" insists that the withdrawal of American troops be disposed of before other questions are considered by the Mexican representatives, both commissions are practically at a standstill. The meetings here will adjourn Thursday to meet Monday at Atlantic City.

LABOR LEADERS FIGHT SHY OF MEDIATION BOARD

Washington, September 26—Creation of a National Board of Mediation and Conciliation, with broadest powers, but just short of the right to enforce compulsory arbitration, may be the outcome of the action of President Wilson in inviting suggestions of the best way to reconcile capital and labor.

The President's appeal for suggestions is likely to meet with a ready response. Labor leaders here, and the few Senators and Representatives still in Washington are studying the situation very carefully. They agree with the statement of the President that "the greatest menace apparent" to the continued prosperity of the country is the increasing unrest in the labor world.

Organized labor leaders, however, are chary of endorsing any plan that might tie their hands in enforcing their demands through a strike. All who would talk at all insisted today that the strike is labor's greatest weapon and that they are opposed to any action that would in any way abridge it. Most of them believe that a Federal Mediation Board would be a first step toward compulsory arbitration.

HERE AND THERE

If you have friends visiting you, or if you are going on a "sit," please drop us a not a that effect.

Mr. Parker Hord of Fourth street is spending a few days in Cincinnati.

Mrs. Dr. Taggart of Burtonville passed through this city yesterday to Cincinnati.

Mrs. Mose Fischer and children of Limestone street are spending a few days in Cincinnati.

Mrs. John Wells of Flemingsburg is spending a few days with Mrs. W. C. Slye of Walnut street.

Mrs. Samuel Middleman of Limestone street is spending a few days with relatives in Cincinnati.

Mrs. John Campbell of Covington is visiting her daughter, Mrs. Frank Smith, of East Second street.

Mrs. William Mearns of Xenia, O., arrived yesterday on a visit with Mr. and Mrs. G. E. Mearns of Forest avenue.

Miss Mary Hord of the county passed through this city yesterday en route to Cincinnati where she will visit relatives.

Mrs. J. E. Radford and children returned to their home in Fort Thomas Ky., yesterday after a visit with Mr. and Mrs. John T. Bramel of Walnut street.

Messrs. Otis McCarthy and Jess Harney left yesterday for Cleveland, O., where they go to take lucrative positions.

Mr. and Mrs. Lee Ryder and Mrs. Frank Taylor have returned from a pleasant visit to friends and relatives at Beechburg.

Miss Marie Adkins returned to her home in Brooklyn, N. Y., yesterday after a month's visit with relatives and friends in Maysville and vicinity.

Mr. Lytle J. Hunter a most interesting gentleman and successful business man of Flushing, L. I., is the guest of Co. L. T. Anderson of Point au View Farm.

The gauge marks 3.6 this morning, almost a foot lower than any time during the season.

The Courier passed up and returned from Manchester this morning. Local rivermen seemed doubtful of her being able to return all the way to Cincinnati on account of the low water.

All of the pilots reporting in Cincinnati yesterday stated that the river is in a bad shape on account of low water and that any of the boats, including the smaller ones are in danger on the sandbars.

Movements of the packets are so uncertain that it is not known what boats will pass today. The Greenwood will probably pass down for Cincinnati. The Courier has been repaired and is now ready to make a trip.

The Greenline steamer Courier has removed all the freight from the sunken steamer Reuben Dunbar. The hole in the hull of the boat was repaired yesterday but it will probably be some time before the boat re-enters the trade.

Messrs. Coughlin & Co. have received one of the new Ford automobiles for the Central Garage. It will be used in their extensive undertaking business.

BREAD PRICE RAISES

Local Bakers Again Decide They Will Be Unable to Make Bread to Retail at Five Cents and Price Will Again Be Raised to Six Cents Per Loaf—Bakers Find Loss Is Too Heavy.

The local bakers have again decided that they must raise the price of bread and it will again go back to six cents per loaf on next Monday. This decision was reached by the bakers after giving the five cent loaf a thorough try-out during the past two weeks.

It will be remembered that the price was raised to six cents a few weeks ago but determining to again give the five cent loaf a thorough trial and wishing to investigate further the price was again lowered to five cents. The largest baker in the city, Traxel, at once started an investigation to learn just what it cost to the fraction of a cent to produce a perfect loaf of bread and to this end one man was employed last week to do nothing but keep tab on the expenses of the bakery and the money realized from this department of Traxel's business. At the close of the week a balance was drawn and we yesterday taken into the confidence of this concern and the balance on the wrong side of the ledger would startle one. This concern is quite a large one and the expenses of the bakery department for one week runs into the hundreds of dollars. They do a large business and, therefore, can afford to be satisfied with a small per cent. of profit, but the fact that a man does a large business and makes a heavy loss on each article sold is serious. Traxel is not like the Aberdeen butcher who, although he lost money on each hog, could afford to sell them because he sold so many of them.

Everything that goes into making a perfect loaf of bread has increased in price wonderfully within the past few months. Flour is now eight dollars and a half a barrel and everything else used has advanced in proportion. The wax paper wrappers used in wrapping the famous Quaker bread have increased more than two hundred per cent. in price and now cost the local concern more than a quarter of a cent each.

With the big loss of their plants starting them in the face Messrs. Traxel and McNamer held a meeting yesterday at which time they decided they must increase the price of bread to save themselves. The increasing of the price is not to their liking and they have done everything within their power to keep the price down to the popular jiffy but a few more weeks at the great loss they experienced last week and they would both be out of business.

Bread has been increased in price all over the country and only this week some of the largest bakers in Cincinnati increased their price to six cents per loaf, while at Portsmouth, Columbus and most every city in this section of the country prices are above a nickel. Bakers in New York last week raised the price, and even now a meeting is being held in New York between the Master Bakers and representatives of the Housewives League in an attempt to find some plan to reduce the price of wheat and flour.

The retail prices of six and ten cents will go into effect Monday morning at all local stores handling either Traxel or McNamer bread.

Mrs. Sherman Arn spent the day in Cincinnati yesterday.

OUR COLORED CITIZENS

There will be a supper in the basement of the Bethel Church tomorrow evening for the benefit of the church. All are welcome.

DEMOCRATIC LEADER JOINS RE-PUBLICANS

New York, September 27—Harvey C. Garber, who served four terms as a Democrat in the Ohio Assembly, three terms as a Democratic congressman from the Fourth district of Ohio, eight years as Democratic National committeeman from Ohio and five years as chairman of the State Democratic Executive committee, is at the Hotel Vanderbilt, having come to New York to arrange to take the stump for the Republican national ticket. Mr. Garber, who has been active in legislative matters concerning labor, says that the Adamson bill is what decided him to espouse the Republican cause. He will speak in the Democratic counties of Ohio. Even money is offered that Hughes will carry New York. The money is practically unlimited, but there are few takers. Also wagers at 2 to 1 on the election of Hughes are offered in amounts up to \$10,000.

WATERMAN'S IDEAL
FOUNTAIN PENS

SATISFIED CUSTOMERS ARE THE BEST ASSET OF ANY BUSINESS.

Nowhere does this axiom become more apparent than in the handling of Waterman's Fountain Pens. They are essentially fountain pens of continuous and life-long satisfaction to the user—and are known as such by the writing public everywhere.

Waterman's Ideals are made in Self Filling, Safety, Regular and Pocket types. All prices. Come in and try one.
